

Chioggia, 03rd January 2022

SUBJECT: GMO FREE declaration

Dear Customer,

we kindly inform you that the vegetable seeds commercialized by Smarties.bio Srl Società Agricola have been obtained by traditional breeding methods without using any genetic modification technique or any genetically modified material, as specified in the Directive 2001/18/EC concerning the deliberate release of GMOs into the environment.

The methods used to obtain and produce those varieties include severe procedures, with respect of law requirements, aiming high standards of purity and avoiding the presence of off-types and GMOs and their contamination.

It is appropriate to point out that, despite what mentioned above, the risk of accidental contamination in seed multiplication (even if very low) areas cannot be completely excluded, therefore we decline all responsibility for any possible damages that could derive from that.

Kind regards,

Smarties.bio Srl Soc. Agr.
